- Comienza con la exfoliación segura y suave de las delicadas áreas de los labios y los ojos
- Oportunidad de ingresos adicionales

MANIFOLD CLEANING

HANDPIECE CLEANING

HYDRAFACIAL™ PERK™
TUBING CLEANING

¡LIMPIEZA FÁCIL!

MANIFOLD

Se recomienda la limpieza del colector cada 50 tratamientos para garantizar el rendimiento adecuado del sistema.

HANDPIECE

Limpie con una toallita desinfectante sin alcohol para limpiar el exterior. Siga las instrucciones para la limpieza con cepillo y aire comprimido de las piezas internas.

TUBING

Un tubo direccional se puede enjuagar con System Rinse para evitar la acumulación. Limpie el tubo exterior con toallitas desinfectantes que no contengan alcohol.

INSTRUCTIONS

Performing a thorough handpiece cleaning will help maintain the handpiece.

CLEANING INSTRUCTIONS

Daily Cleaning:

- Turn the flow control valve all the way over to the '+' sign and attach the cleaning cap to the handpiece.
- Ensure all the blue toggle switches are in the 'OFF' position and switch the gray toggle to the 'ON' position.
- Turn the System on and set vacuum setting to 26. Run the Rinseaway™ System Cleaning Solution for 20 seconds.
- When completed, be sure to switch the gray toggle to 'OFF' and return the flow control to the recommended setting.

Weekly Cleaning:

- Make sure flow control is fully open. Detach the handpiece from all tubing. Gently twist the knobs counter-clockwise to detach each tube from the handpiece.
- Insert the cleaning brush into the vacuum (smaller opening) on the face of the handpiece. Push it in gently all the way, while rotating in either direction. Repeat with the opening on the back with the blue lock.
- Wash the brush bristles in soapy water to clean off debris.

LIMPIEZA SIMPLIFICADA

MEDICAL INFORMATION

Please alert your HydraFacial technician if you have any of the following medical conditions or if you have any known allergies.

Contraindications

This System is intended for external use on intact skin only, subject to the following contraindications and warnings:

- This System is not intended to be used on infants, children, pregnant or lactating women.
- Do not use over active acne, such as severe, inflammatory acne.
- Do not use over active infection or open wounds (e.g., herpes simplex, excoriations, or open acne cysts).
- Do not use on patient with autoimmune or communicable disease.
- Do not use on patient with cold sores or fever blisters without pre-medication.
- Allergy to any ingredient in the skin solutions
- Do not use over abnormal, unidentified facial growth or mark.
- Not recommended for severe acne scarring.
- Melanoma or lesions suspected of malignancy.
- Active sunburn.
- Very thin skin
- **Other aesthetic treatments:**
  - Botox: wait 6–7 days;
  - Fillers:wait 7–10 days
  - Peels: wait 30 days
- **Laser Treatments:** wait until lesions heal and swelling and redness is resolved

Warnings

- If the skin becomes irritated beyond normal, discontinue the treatment and seek medical advice.

Precautions

- Do not use within the orbital area or over any body orifice, such as over the eyelids. Eyes should be closed during the procedure and covered with protective eyewear. Sterile eye rinse solution should be available in case products accidently get in the eyes.
- **Anticoagulants Therapy:** use lower vacuum settings
- **Rosacea, Telangiectasia:** use lower vacuum settings
- **Epilepsy:** avoid LED lights therapy
- **Keloids:** avoid direct contact

Other Concerns

- Accutane or other similar medication use in the past year.
